Tasks

This was the first example in Italy of a special Corps specifically established and organised for financial surveillance duties along the borders, as well as for the military defence of the frontiers.

The general framework of the Corps was established, based on Law no. 189 of April 23, 1959, which sets its institutional tasks. These tasks were later updated by measures that introduced new and specific responsibilities.
The organizational structure has recently been revised by Presidential Decree no. 34 of January 29, 1999, in the framework of a reorganization process of the Civil Service, with a view to achieving an ever more efficient and cost-effective administrative action
